A Continuing Medical Education Activity

Statement of Need

This CME conference will provide current up-to-date advances in maternal, fetal and neonatal medicine. The faculty will present a variety of topics through lectures, panel presentations and case-based discussions. Topics will include prevention of prematurity, perinatal mental health, maternal mortality reduction, neonatal hypoxic ischemic encephalopathy, bioethical issues in perinatal medicine, optimal timing for induction, and medico-legal issues in perinatology.

Learning Objectives

At the conclusion of this activity, participants should be able to:

- Evaluate pregnant and postpartum women for mood disorders or depression and treat or refer appropriately.
- Develop strategies for preventing or decreasing maternal morbidity and mortality using appropriate toolkits and maternal safety bundles.
- Develop appropriate skills to educate and counsel pregnant patients on the risks and benefits of labor induction at 39 weeks.
- Integrate current principles of biomedical ethics and law into the care of pregnant and neonatal patients.

Target Audience

This is a regional conference designed to meet the education needs of:

- pediatricians
- obstetricians
- neonatologists
- hospitalists
- emergency medicine
- family practice
- certified nurse midwives
- nurse practitioners
- nurses
- physician assistants
- social workers
- allied health professionals
